About this demo

Welcome to the official demo website of the open source content management system Contao. On its pages you will find demonstrations and examples of some of the features this CMS has to offer. The official Contao demo comes with every installation of the CMS and is designed to help you get started with your first web projects.

Like any other content management system Contao is divided into two areas: the back end (administration area) and the front end (website). If you are reading this page you are currently viewing the front end. To login to the back end, simply click /contao in the URL of the site (<https://www.contao.org>).
