Remove the Contao 3 ClassLoader, ModuleLoader and TemplateLoader?
Added by leofeyer

Revise all deprecation messages and change "will no longer work in Contao 5" to "will no longer work in future Contao version" (unless it will really no longer work in Contao 5).
Added by leofeyer

Remove the "first", "even", "odd" and "last" CSS classes
contao#2868 opened by asaage
bug incompatible

getForm-Hook wird ausschließlich im Insert-Tag {{getForm::\$id}} getriggert.
contao#2678 opened by Tastaturberuf
bug incompatible

Remove duplicate div container with "custom" class from block_sections Template
