Security

Two-factor authentication

Here you can enable two-factor authentication, which adds an extra layer of security to your account. In addition to your username and password, you will need to enter a verification code generated by a two-factor app such as 1Password, Authy, Google Authenticator, Microsoft Authenticator, LastPass Authenticator or any other TOTP app.

Enable

Passkeys

Passkeys allow you to log in securely and easily without the need for a password and two-factor token.

Add passkey
