## About this demo

Welcome to the official demo website of the open source content managment system Contao. On its pages you will find demonstrations and examples of some of the features this CMS has to offer. The Contao demo website can be added when installing the CMS and is designed to help you get started with your first web projects.

Like many other content management system, Contao is divided into two areas: the back end (administration area) and the front end (website). You are currently viewing the front end. To log in to the back end, add */contao* to the URL of the site ({{env::path}}contao).
