Fixes #6368

According to https://www.w3.org/WAI/WCAG22/Understanding/target-size-minimum.html the click area should be at least 24x24px. This PR changes that with limited changes on the overall layout.

Add the new operations inline in the parent view #8789

Open **aschempp** wants to merge 6 commits into `contao:5.x` from `aschempp:feature/new-element`

Conversation 7 | Commits 6 | Checks 0 | Files changed 7

aschempp commented last week — Member

This adds an inline "new" operation at the place where you want to add a new content element. It is automatically added to all sorted parent views.
