Two-factor authentication

✓ Two-factor authentication has been enabled.

Edit Disable

Backup codes

Backup codes can be used to access your account if you have lost your authentication device and cannot generate two-factor codes anymore. Treat your backup codes with the same level of attention as your password! It is recommended to save them with a password manager such as Lastpass, 1Password or Keeper.

Generate backup codes

Trusted devices

Currently there are no trusted devices.

Passkeys

Passkeys allow you to log in securely and easily without the need for a password and two-factor token.

Add passkey
